

# €2000 Water Well Grant Available

Many homeowners are unaware there is a grant available from their local authority of 75 % ( maximum paid out €2030). The grant entitles homeowners to any or a combination of the following; Well drilling, pump installation, filtration system or carrying out improvements to a seriously deficient existing piped supply of water (i.e. old well or gravity supply)

1. The house concerned must be constructed 7 years or over.
2. The house concerned is not connected to a public or group water supply.
3. It is the customers normal place of residence(i.e. not a holiday home)

Home owners not eligible for a grant are as follows;

1. The house concerned is at present under construction or has been constructed in the last seven years.
2. The house concerned is connected to mains supply.
3. Mains supply is available to your house.

The objective of the grant scheme is to assist households dependent on private individual water supplies. An applicant form is available from your local county council environment section- water grants. This form should be accompanied by a site location map of the house concerned.

For further details contact Ellis Well Drilling on 059 6471355 (office).

## Q&A

### Frequently asked questions

- Q** How long will it take to have my well drilled ?  
**A** A typical well takes a day to produce
- Q** Do I need planning permission to have a well drilled ?  
**A** Only new builds need planning permission, existing properties do not require planning permission to have a well drilled
- Q** I am not VAT registered, can I reclaim the VAT ?  
**A** Yes, you can claim a percentage of the VAT when you submit a VAT S8 form at end of year
- Q** I have a very old dug well ( man made ) Can I have this cleaned out ?  
**A** No, we can only clean up an old drilled well, drilled less than 20 years
- Q** I have a 'rotten egg' smell coming from my water, what is the cause of this ?  
**A** This is caused by manganese, a filtration system will sort this problem
- Q** My water is brown in colour, what would be the cause of this ?  
**A** This may be the sign that you have iron oxide in your water, a water test will clarify this and a filtration system will take care of this problem
- Q** How much will my well cost ?  
**A** Contact us for a free no obligation quotation

## Geothermal Drilling

### ENERGY UNDER YOUR FEET... MONEY IN YOUR POCKET

ELLIS DRILLING also provide nationwide drilling for geothermal heating systems. Enjoy constant heat and hot water all year round. Any advice you may need about moving towards Geothermal energy is readily available and we offer a high quality service with very competitive rates. Geothermal heating extracts heat from the earth. While the temperature of the soil to several feet below the surface varies with the seasons, the earth's temperature stays the same all year round
